

CRI Internship Project Outline Guidelines

Due on September 29th, 12pm EST:

- An outline of your proposed project, in Word format including:
 - a paragraph description of your project including any methods, timelines, and goals
 - three outcomes of your project and how it will help the Community Research Institute or your internship placement organization
 - an outline of the structure and timeline of your project:
 - can be estimates for the timeline
 - should be written in clear and concise language
 - should include all parts of the project with notations on which team member is taking ownership over each part (if relevant)
 - the outline should also address any potential limitations to your work and how you propose to address (or not) those limitations
